SKILLS

Languages: JavaScript, Python, Java, C++, C, C#, Assembly

Framework and Libraries: React.js, Express.js, Next.js

Web Development: HTML5, CSS3, Tailwind CSS

Database: PostgreSQL, MySQL, Supabase

Data Analytics: Data lifecycle management, Data Visualization (Tableau), and Data Cleaning.

Tools & Platforms: Git, Github, VS Code

PERSONAL PROJECTS

Lakbai | Metro Cebu Commuter Guide

- A full-stack Metro Cebu commuter guide built with Node.js, PostgreSQL/ Supabase, and Leaflet.js to map jeepney routes.

Aria's Fleur | E-commerce Platform

- Developed a complete e-commerce solution with an integrated admin dashboard using Node.js and Supabase to manage handmade product inventory and sales.

Business Estimation System | CPQ Application

- Architected a specialized Configure, Price, Quote (CPQ) mobile app for contractors using Kotlin and Firebase to automate real-time glass and aluminum cost estimations.

SugboGas - Real Time Fuel Prices Across Cebu

- Developed and launched a full-stack, real-time fuel price tracking application for drivers in Cebu, managing the end-to-end development from database architecture to frontend deployment.

Sol - Debt Tracker

- Engineered a mobile application designed for intuitive installment and payment tracking, focusing on clean aesthetics and reliable performance.

Mechy - The Mobile Mechanical Keyboard Companion

- Developed an Android application that simulates mechanical keyboard audio feedback and haptics, optimizing for low-latency audio playback and a clean user interface.

Stiki - Cozy Sticky Notes for Windows

- Built a lightweight desktop notepad application designed for seamless note-taking, focusing on a minimalist UI and efficient local data persistence.

CERTIFICATION

Cisco Networking Academy (NetAcad) *August 2025 - December 2025*

Student

- Completed coursework in Data Analytics, focusing on the data life cycle, visualization with Tableau, and data cleaning techniques.

HTML Fundamentals (CodeCred) *March 4 2026*

Student

- Validates foundational HTML skills for creating accessible, standards-compliant web pages, laying the groundwork for further web development.

Programming Java NC III (Call Center Academy) *July 13, 2026 - August 21, 2026*

Student

- Completed a 240-hour program focusing on object-oriented analysis, design in Java technology, and fine-tuning Java applications.

Data Analytics Level III (Call Center Academy) *April 8, 2026 - May 9, 2026*

Student

- Completed a 120-hour program covering statistical concepts and analysis, as well as preparing, summarizing, and visualizing data sets.

Cebu SolutionsFest 2026 Finalist (Cebu Institute of Technology University) *June 17, 2026*

Finalist - Student Track (Team Jabai)

- Recognized for innovation, collaboration, and creative problem-solving throughout the hackathon journey.

EDUCATION

Cebu Technological University *2022 - Present*

Bachelor Of Science In Computer Engineering - *Undergraduate*
